

Areeb Khan

Senior Full Stack Engineer (MERN)

Karachi, Pakistan | +92 306 2306838 | areebkhan123123@gmail.com

<https://www.linkedin.com/in/areeb-khan-33808716a>

PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 5+ years of experience building scalable web applications, microservices, and systems using the MERN stack. Proven expertise in React, Next.js, Node.js, and NestJS, with strong experience in system design, API development, and cloud deployments (AWS). Demonstrated leadership in managing teams, improving system performance, and delivering high-quality production systems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python
Frontend: React.js, Next.js, Redux, Redux Toolkit, React Query, Tailwind CSS, HTML5, PWA, Responsive Design
Backend: Node.js, NestJS, Express.js, GraphQL, REST APIs, API Gateway, WebSockets, Microservices
Databases: MongoDB, PostgreSQL, MySQL, DynamoDB, Firebase, Supabase, Redis
DevOps: Docker, AWS (EC2, Lambda, ECS, S3, RDS), CI/CD (Jenkins, GitHub Actions), Nginx, PM2,
Tools: Git, GitHub, Elasticsearch, Socket.io, Mocha, Jest
Concepts: System Design, Event-Driven Architecture, API Optimization, Performance Tuning, Scalable Systems

PROFESSIONAL EXPERIENCE

Lead Full Stack Developer (MERN)

Dec 2023 – Present

Strugbits

- Led development of scalable web applications using React.js, Next.js, and Node.js, improving performance by 30%+
- Architected microservices backend systems handling high concurrent traffic
- Implemented advanced state management using Redux Toolkit and React Query
- Integrated Elasticsearch with MongoDB to enable fast search functionality
- Built and managed CI/CD pipelines using Jenkins and GitHub Actions, reducing deployment time by 50%
- Deployed containerized applications using Docker and AWS ECS, ensuring scalability and reliability
- Managed cloud infrastructure on AWS (EC2, Lambda, ECS) with Nginx for optimized performance
- Mentored and led engineering teams, improving delivery efficiency and code quality

MERN Stack Developer

Dec 2022 – Dec 2023

Nexomos

- Developed full-stack applications using MERN stack with scalable backend architecture
- Built optimized Node.js services, improving API response times by 25%
- Implemented Redux (Thunk) for complex frontend state management

- Designed and optimized database schemas across MongoDB and PostgreSQL
- Wrote unit tests using Mocha and Chai to ensure the codebase
- Integrated CI/CD pipelines and deployed applications on AWS infrastructure
- Worked on Docker-based deployments and server configurations using Nginx

MERN Stack Developer

Jan 2021 – Dec 2022

Zaavia

- Built responsive web applications using React.js and Next.js
- Developed RESTful APIs using Node.js and Express.js
- Integrated GraphQL APIs and third-party services
- Developed Progressive Web Applications (PWAs)
- Managed containerized environments using Docker
- Configured Nginx for production deployments

KEY ACHIEVEMENTS

- Improved system performance by 30–40% across multiple production applications
- Reduced deployment time by 50% through CI/CD automation
- Led and mentored development teams delivering scalable production systems
- Built systems handling thousands of concurrent users
- Implemented AI-driven solutions, including OCR pipelines and RAG-based systems

PROJECTS

Synko – AI Powered POS System

<https://synko.tech>

Role: Team Lead

- Led development of multi-store POS platform with AI-driven capabilities
- Built scalable backend systems and payment integrations
- Delivered a high-performance solution used across multiple business operations

GoodPathAI – AI Therapist Platform

<https://www.goodpathai.com>

Role: Senior Full Stack Engineer

- Built an AI-driven therapist-patient communication platform
- Implemented OCR pipelines to extract and process medical documents
- Developed RAG-based AI system for intelligent recommendations
- Integrated Zoom APIs for real-time consultation sessions
- Designed system to automatically match patients with AI-driven therapists
- Built scalable backend services and real-time communication features

LaunchMyStore – E-commerce Platform

<https://launchmystore.io>

- Developed scalable platform using NestJS and PostgreSQL
- Implemented WebSockets for real-time features
- Designed modular and scalable backend architecture

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2017 – 2021

Iqra University, Karachi, Pakistan
